INTRODUCTION

Zambia eRegistry is an informational business licensing portal designed to provide searchable access to comprehensive information on all valid business licenses and permits in Zambia.

The e-registry provides easy access to exhaustive information about business licenses and the formalities businesses must comply with to obtain the licenses. The registry is a one stop shop for all licensing information required to engage in activities or set up businesses.

Additionally, the eRegistry provides information on Business start-up procedures and links to agencies providing these services.

This guide is divided into two parts:

- **Part 1:** Documents the frontend capabilities and features of the eRegistry. It showcases the eRegistry portal in detail as will be visible to the public enabling them gain sufficient understanding on how to use and navigate the portal and obtain relevant information regarding business licenses and procedures in Zambia
- **Part 2:** Documents the backend capabilities and is a comprehensive guide on how to administer and manage the eRegistry components and features. This will be accessible to BRRA, Issuing Authorities and Ministry of Justice(MoJ)

ZAMBIA INFORMATIONAL BUSINESS LICENSING E-REGISTRY SYSTEM USER GUIDE v1.1

PART 1: FRONTEND GUIDE

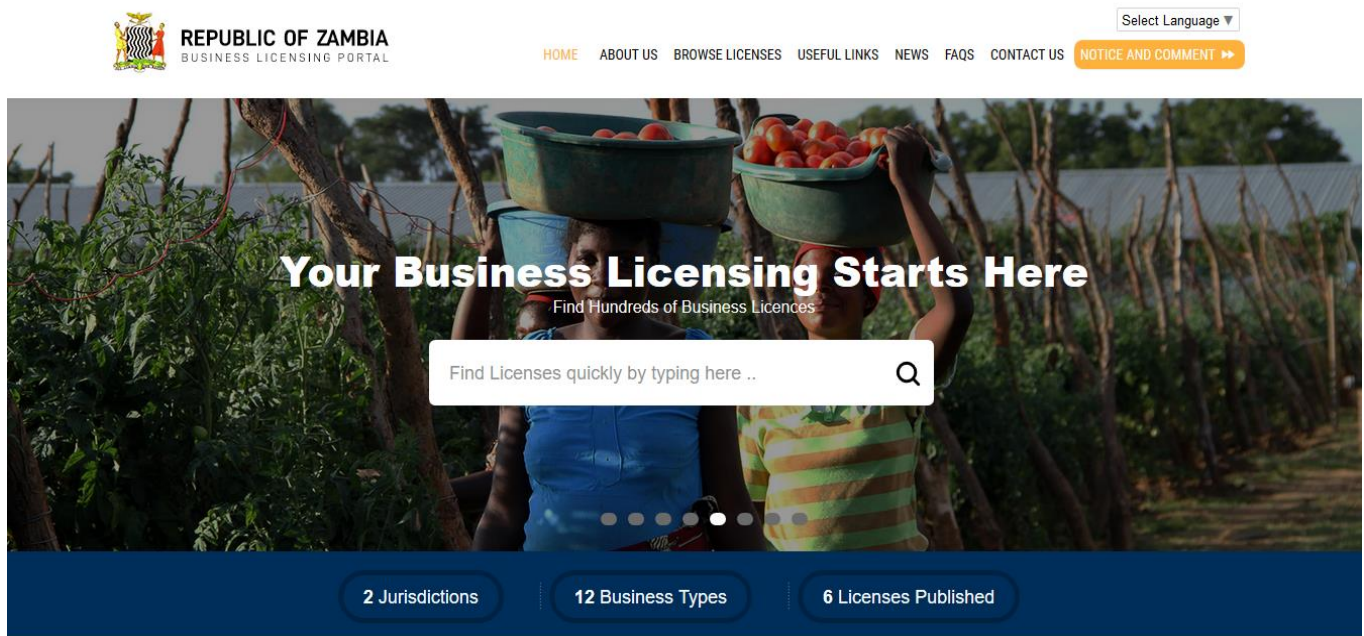

1.1 ACCESSING THE SYSTEM

Zambia eRegistry is an informational business licensing portal designed to provide searchable access to comprehensive information on all valid business licenses and permits in Zambia. To access the portal, open your preferred web browser and enter the URL <http://www.businesslicenses.gov.zm/>.

1.2 HOMEPAGE FEATURES AND HIGHLIGHTS

1.2.1 Homepage

The homepage presents you with a simple attractive layout to help you navigate and get information about the eRegistry portal. The top section showcases a slider of images with a quick search option for licenses and statistics on jurisdictions, business types and number of published licenses.

The section below the banner has summary information on the purpose of the Zambia business licensing e-registry.

Zambia Business licensing information Portal

Businesses operating in Zambia are typically required to obtain one or more licenses and permits, depending on the activities of their enterprise. This website enables you to obtain information on the licenses pertaining to your business. Use the search below to find the licenses you will require to start your business.

1.2.2 Advanced Search

The homepage also includes an advanced search feature that provides a search capability that enables end users to search/filter licenses by jurisdiction, industry, business type and business activities.

Search Licenses

Search by Location, Industry and Business type

1.2.3 Business Start Up Procedure

The lower section of the homepage also provides visitors with information on business startup procedures such as: Registering businesses, Tax Clearance, Social Security, Land and Property, Visas and Permits, Investing in Zambia and Customs.

Figure: Business Startup Procedures

Once you select a particular procedure, you will be redirected to a page that gives information about the step-by-step procedures as well as a link to the agency/ministry's website for more information on the procedure

NAME CLEARANCE

Name clearance is a process of checking for the existence of a proposed company or business name. This is done to ensure that the proposed company or business accepted for registration does not exist or is not confusingly similar or misleading to the public.

1. PREREQUISITE

1. Name clearance guidelines: The following names are not allowed:
 1. A name that is too long and difficult to pronounce.
 2. A name that suggest that the applicant enjoys the patronage of the President.
 3. A name that is confusingly similar to what already exists or the same as a well-known name.
 4. Offensive or undesirable names. This means that a name should not be in form of an insult as this is against public policy.
 5. Deceptive or misleading names.
 6. Use of the word Zambia as a prefix
2. Name Clearance can be processed from any nearest PACRA office or on the website at www.pacra.org.zm

2. PROCEDURE

A maximum of three names can be proposed. The names will be considered in the order of listing. If the first choice is turned down, the second or third name may be considered. Once the name is accepted, it is automatically reserved for a period of 30 days. After 30 days the name clearance expires.

3. FEES

1. Business Name – K83
2. Local Companies – K90
3. Foreign Companies– K200

4. FORMS

1. An application for approval of a name can be made in writing or on a name clearance form (Companies Form 1 – Application for name clearance).
2. This Form can be downloaded from www.pacra.org.zm

1.3 ABOUT US

The 'About Us' page contains detailed information about The **Business Regulatory Review Agency (BRRA)** **About Us**

The Business Regulatory Review Agency (BRRA) was established through an Act of Parliament, the Business Regulatory Act, No. 3 of 2014 and became fully operational in January 2016. The mandate of BRRA is to review and approve proposed policies and laws that affect business activity to ensure they are legitimate and serve the intended purpose as well as coordinate development and implementation of appropriate government-to-business interventions aimed at reducing the regulatory burden on businesses.

BRRA was set up against the background where stakeholder consultation in formulation of legislation and regulation was generally poor and consideration of the impact of business regulation was not emphasised. The enactment of the Business Regulatory Act is a strategy to ensure regulators undertake Regulatory Impact Assessment (RIA) and stakeholder consultations in the formulation of regulations that impact on business activity.

The Business Regulatory Act applies to the regulation of business activity subject to the terms and conditions for applying and issuing any license, permit, certificate or authorisation under the relevant law regulating that business. The Act is complementary to any law regulating business. Therefore, any regulation that has a bearing on the conduct of business, be it to start, operate or cease to

Business Regulatory Review Agency

ZAMBIA INFORMATIONAL BUSINESS LICENSING E-REGISTRY SYSTEM USER GUIDE v1.1

PART 2: BACKEND ADMINISTRATION GUIDE

In this part of the guide, we shall take you through how to administer and manage the eRegistry features, content and capabilities

2.1 GETTING STARTED

To login to the ERegistry administration;

- Open your browser and enter the portal's URL, <https://www.xxx.xxx/login-admin/login>

The screenshot shows the login interface for the Republic of Zambia Business Licensing Portal. At the top, there is a logo featuring the national coat of arms and the text "REPUBLIC OF ZAMBIA BUSINESS LICENSING PORTAL". Below the logo, a welcome message reads "Welcome to the Eregistry. Please login." The login form consists of two text input fields: "Username" and "Password". Below these fields is a prominent yellow "LOGIN" button. To the right of the button, there is a link that says "Forgot your Password?". At the bottom of the page, a footer line states "2019 © Eregistry system. Government of Zambia".

- Enter your username and password and select Login.

You will be redirected to the backend eRegistry dashboard. Here you can now administer and manage components of the eRegistry System

2.2 THE DASHBOARD

Once you log in successfully, you will be redirected to the eRegistry Dashboard

The screenshot displays the eRegistry Dashboard. The top navigation bar includes a welcome message 'Welcome, admin!', a profile icon, a tasks icon with a red notification badge, a messages icon, and a logout button. The sidebar on the left contains a search bar and a list of navigation options: DASHBOARD (highlighted with a red box), E-registry, Notice & Comment, MANAGE LICENSES (highlighted with a red box), MANAGE REGULATIONS, MANAGE CONTENT, MANAGE USERS, MANAGE SECURITY, and HELP. The main content area features a search bar and a 'Dashboard' heading with the text 'Welcome to your Business Licensing Information Portal.' Below this, there is a 'Website statistics' table, a 'My Tasks' section, and a 'New licenses' section.

Stats	Description	Changes
6	Published Licenses	0
6	Unpublished Licenses	0
2	Jurisdiction	0
13	Industries	0
12	Business Types	0

The 'My Tasks' section shows a table with columns for Description, Status, and Acts. The 'New licenses' section displays a 'Certificate of Registration as Engineering Organisation'.

The dashboard gives a summary of what is in the system:

- Website statistics i.e number of published licenses, locations, industries e.t.c
- Available tasks
- New licenses
- New Users
- and latest Updates

2.3 MANAGE ISSUING AUTHORITY

Go to 'Manage Issuing Authority' menu and Select Issuing Authority. This will present you the list of Issuing Authorities in the system in a paginated format

search...

Show 10 entries

Search:

Name	Address	Agency offices	Action
Ministry of Commerce, Trade and Industry	New Government complex, Nasser Road, 9th Floor, Lusaka Zambia	0	

2.3.1 Add Issuing Authority

To add an Agency/Issuing Authority, click on the 'Add New Issuing Authority' button.

Give details of the Agency such as name, address, telephone, email, jurisdiction as well as the officers/users from that agency. Additionally, if the Issuing Authority has more offices you can add them here

Create a new license agency

Back To List

Agency Details

Agency Offices

Main Title* Zambia Police

Name* Zambia Police

Abbreviation

Fax

Address* Police Headquarters, Independence Avenue, Lusaka

Once done, click the 'Create' button to Save

2.3.2 Update/Edit Agency/Issuing Authority Details

Go back to the List of Agencies and click on the 'Edit' button beside the Agency you want to update. Since the list is quite big, you can choose to use the '**Search**' option for the Agency you wish to update. Edit the details and then click on 'Update' to save the changes

2.4 MANAGE BACKEND USERS

Go to 'Manage Users' menu and Select Back-End Users. This will present you with a list of all backend users in the system in a paginated format

2.4.1 Add Backend User

To add a backend User, click on the 'Add New Issuing Authority' button.

Give details of the Agency such as name, address, telephone, email, jurisdiction as well as the officers/users from that agency. Additionally, if the Issuing Authority has more offices you can add them here

2.3 MANAGE LICENSES: JURISDICTION, INDUSTRIES, BUSINESS TYPES, ACTIVITIES AND ISSUING AUTHORITY

Before creating licenses, it is important to get the components on the license in place to avoid going back and forth amidst license entry / editing. Let's start with the jurisdiction, then proceed to Industry - > Business Types and Finally Business Activities. After this we can add the Issuing Authority details and then go ahead and now add Licenses

2.3.1 Note: Categorization of Business Licenses – ISIC Classification level 1,2 and 4

Business licenses are categorized according to the following criteria.

Categorization	Description	Mapping
Industry	This indicates the economic sector (industry) that the activity to be licensed falls in. E.g. Transport and logistics, Tourism, Health, Financial services, Agriculture etc. Should be based on ISIC classification system.	One Industry can have multiple Business Types. E.g. transport industry can include air transport, road transport, car hire transport etc.
Business Type	This indicates the type of business within a specific industry. E.g. business types under Tourism industry could be accommodation, entertainment, game hunting etc. These	A Business Type can only be associated with one Industry. E.g. fish farming or cotton farming can only be in Agriculture industry.

	can utilize common local business terminology (e.g., hawker, restaurant, convenience store) rather than the more formal ISIC subcategories	One Business Type can have multiple Business Activities. E.g. pharmaceutical business type could include activities such as conducting clinical trials, manufacturing drugs, importing drugs, retailing of drugs etc.
Business Activity	A business activity represents a specific activity that a business may require a license for. Examples could include coffee grading, exporting coffee, importing drugs, conducting clinical trials etc. This should also include regulated activities requiring a permit, such as construction, solid waste disposal and advertising signage.	One Business Activity is usually associated with one license; e.g. the manufacture of drugs could require a pharmaceutical manufacturing license; however, cases may exist where one business activity requires more than one licenses. One Business Activity can be associated with multiple Business Types. E.g. both pharmaceutical and accommodation business types may have outdoor and vehicle branding as business activities.

2.3.2 Manage Licenses: Jurisdictions

In Zambia, Licenses are either under National or Districts Jurisdiction. However, to make it easy for users to select their districts on the frontend, they will have to select their province first.

So to add a Jurisdiction, we shall first add provinces, which in this case we shall refer to as 'Jurisdiction Categories'

Go to 'Manage Licenses' menu and Select Jurisdiction. This will present you the list of Jurisdictions in the system in a paginated format

...	#	Name	Description	Business Types	Licenses	Actions
☐	1973	Plant importation	Plant importation	Crop and Animal Production, Hunting and Related service activities,	Import permit for Agriculture Commodities,	
☐	1974	Plant Exportation	Plant Exportation	Crop and Animal Production, Hunting and Related service	Export permit for agricultural commodities,	

Make the updates you need and then click on the 'Update' button to save changes.

2.4 MANAGE LICENSES: LICENSE DETAILS

2.4.1 The Workflow

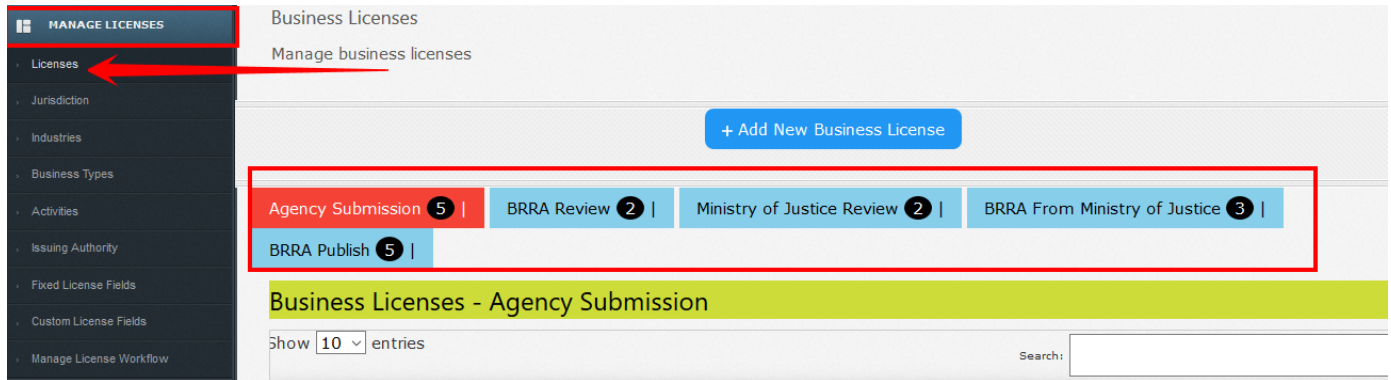

The Flow of publishing license data in the eRegistry is as below:

1. Issuing Authority/Agency enters license data – **Agency Submission**
2. BARRA reviews the license data
 - If the data needs to be corrected, BARRA Reject and give their comments: **Agency Submission with Correction**
 - If data is okay, BARRA approves and forwards to the Ministry of Justice (MoJ) – **Ministry of Justice Review**
3. Ministry of Justice verifies and vets information for confirmation
 - If the license is not valid, MoJ sends it back to BARRA – **BARRA from Ministry of Justice**
 - If the license is valid, MoJ sends it back to BARRA for Publishing - **BARRA from Ministry of Justice**
4. BARRA Publishes License data to the ERegistry: once **BARRA Publish**

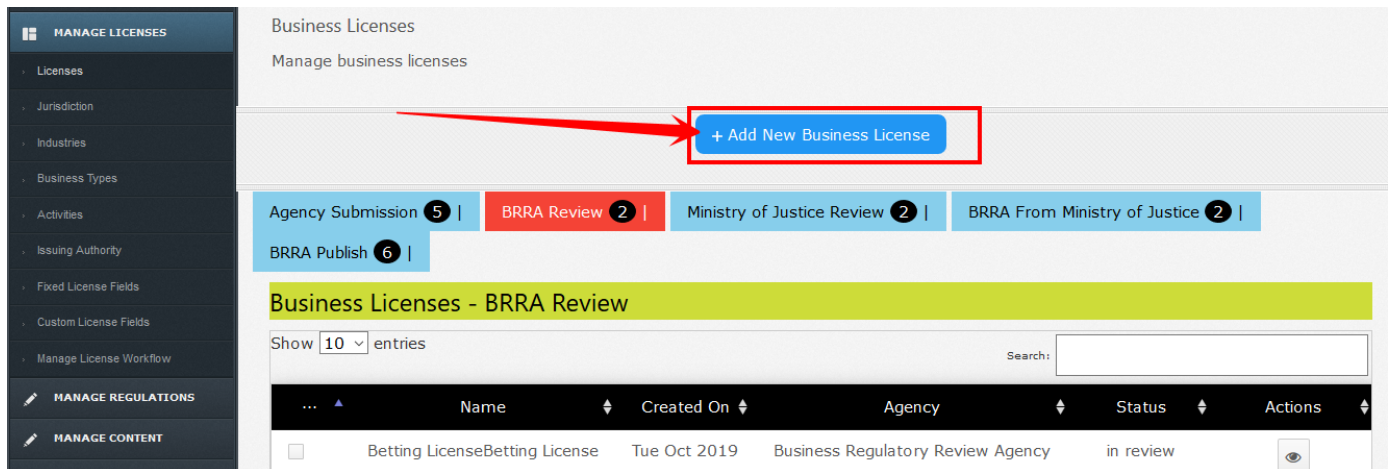

2.4.2 Accessing the License Details

Go to 'Manage Licenses' menu and Select Licenses. This will present you the list of Licenses in the system in their various stages in the workflow

2.4.3 Add Business License Details

Go to 'Manage Licenses' menu and Select Licenses. To add a Business License Information, click on the 'Add New Business License' Button. To add licenses, make sure you have prepared all the information with regard to that license

Adding Business License information is divided into five (5) different tabs

- License Details:** Enter the name of license, keywords, purpose, nature& scope, Fees (such application fees, license fees and renewal fees), processing time, validity, related websites, agency/issuing authority, jurisdiction and activities

BRRA will click on the view button beside the license forwarded to view and verify the details. If okay they shall select 'Approve' button to move this forward to **Ministry of Justice Review**. However, if they see the need for corrections, they shall select 'Reject' and give their comments for correction. This will move the license back to 'Agency Submission with Correction' Stage

Stage 3: Ministry of Justice Review – after BRRA reviews the license details and confirm these are good, the Ministry of Justice will then vet and verify the information for validity and give feedback to BRRA. MoJ will login they'll go to Manage Licenses->Licenses and select Ministry of Justice Review to get the list of licenses under this stage. Click on the view button beside the license to verify the license details.

If okay they shall select 'Approve' button to move this forward to **BRRA for Publishing**. However, if license is not valid, they shall select 'Reject' to move this back to **BRRA for Rejection**. Both these actions move the license to the 'BRRA From Ministry of Justice' stage with the comments

Stage 4: BRRA From Ministry of Justice – BRRA will access this stage to view the comments from MoJ. They will approve or reject as per the comments. If they 'Approve', This will move to the Final publishing stage, BRRA Publish. If not, this will go back to 'Agency Submission with Correction.

Stage 5: **BRRA Publish** – At this stage BRRA will make a final review of the license and 'Publish'. Once they Publish, the License will appear on the Frontend

2.5 MANAGE CONTENT

2.5.1 Manage Pages

To manage pages on the ERegistry, go to Manage Content and Select 'Pages'. This will give you a list of the pages on the ERegistry
